

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GENERAL REVIEW.

**MR. J. C. F. MERRILL, President,
BOARD OF TRADE OF THE CITY OF CHICAGO.**

MY DEAR SIR:

In accordance with an honored custom, and in conformity with the rules of this Association, it is my pleasure to present to you the Fifty-fourth Annual Report of the Board of Trade of the City of Chicago covering the year 1911.

In presenting my report for the year 1910, it was my observation that a careful examination of fundamental commercial conditions showed a serious and gratifying purpose everywhere towards a readjustment of business conditions after a period of rampant commercial activity during the previous years. An examination of the same conditions during the year just closed reveals this policy still in operation which should be a matter of congratulation to all concerned in a conservative and rational administration of business affairs. Only by a careful conservation of our commercial and industrial energy will this nation be fully prepared to direct the forces which inevitably will soon assure us a prosperity more bountiful and widely distributed than any we have yet known.

While business conditions during the last year have not been feverishly active, it should not be concluded that they have been stagnant. Every indication is at variance with any such idea as that of commercial distress or apprehension. Industry is not in a condition of exhaustion but rather of pausing until those concerned can see clearly some signs of returning optimism. Our banking conditions are sound and money plentiful at reasonable rates of interest; labor ample and well paid, and the agricultural crops, the basis of the entire industrial structure, while not enormous, have been reasonably bountiful at fair prices. Accordingly, viewing conditions generally, one may report that while not so favorable as desired, and even hoped, yet on the other hand, they show a steady improvement and a genuine promise of future betterment.

One matter of comparatively recent development both in this country, and among all other civilized and commercial nations as well, should be noted in passing. This is the steadily growing policy that commerce with other nations is a benefit and not a misfortune, and that the wider such commerce with other nations becomes and the greater its volume, the more prosperous and enlightened is the nation which shares in it. It seems, therefore, that this Association has genuine cause for gratification upon the constant improvement in trade relations with all nations and all peoples, bringing nearer as it does the time when the markets of the world will be opened to all nations upon terms reciprocally beneficial to all.

The position of Chicago as the world's greatest grain and provision market shows no sign of an early or permanent decline. While the accumu-

lation of grain receipts at Chicago upon several occasions during the last year threatened to present a complicated and unhealthy situation, yet the steady advancement of prices and a general increase in the demand have restored normal and satisfactory conditions at this market. From the standpoint both of the receiver and shipper, the movement of grain both to and from this market, while not all that could be desired, has nevertheless been in sufficient volume to maintain these essential elements of the grain business in a high state of prosperity.

One line of work during the last year should be especially commended. This is the effort of your Committee on Promotion in conjunction with the officers of the Association and others well qualified by ability and experience to remove in the minds of the public at large those misconceptions of the work and function of speculation in the grain trade. This work has been carried on through the press both in the City of Chicago and outside of it, by speakers at various conventions of farmers and business men, and contributions to magazines of wide circulation and influence. Looking back over the work of the year in this direction, those who have had an opportunity to judge of its effect feel confident of a slow but certain change in public sentiment favorable to this as well as all other produce exchanges where the buying and selling of agricultural commodities for future delivery is carried on.

In one particular, I regret that I cannot report as satisfactory a condition of affairs at this time as I did in my last Annual Report. At the present time, due almost exclusively to the sentiment in the Southern states against the exchanges, various bills have been presented to Congress at Washington seeking to limit speculative trading in agricultural commodities, including grain and cotton. One such bill has recently been reported out of the Committee on Agriculture to the House of Representatives against the vigorous protest, however, of a minority of such Committee, including the Chairman himself. Based upon the latest and most authentic information which I can obtain, there seems small likelihood of the passage of this bill or any other of similar purport at this present session of Congress due to the congestion of other business awaiting action.

A committee of this Association in conjunction with similar committees of other exchanges, sought in every legitimate way to demonstrate the un-wisdom of the proposed legislation and returned from Washington firmly convinced that they had removed all doubt in the minds of the Committee before which the bill was pending as to the legitimate nature of the transactions on this and other produce exchanges. In this, however, they were disappointed by subsequent events. Whatever the outcome of this particular bill, it should but inspire all who know and appreciate the splendid economic functions performed by our produce exchanges to increased vigilance and zealous effort in order that these essential instrumentalities of modern commerce may not only be preserved, but may take their proper place in the economic structure of modern business.

The following tables show the percentages of last year's crops of wheat, corn, oats and barley on hand March 1, 1912:

*The quantity of barley on farms March 1, 1912, was about 24,760,000 bushels, or 15.5 per cent of the 1911 crop, against 23,498,000 bushels, or 19.3 per cent of the 1910 crop on farms March 1, 1911, and 42,602,000 bushels, or 24.6 per cent of the 1909 crop on farms March 1, 1910. About 57.2 per cent will be shipped out of the counties where grown, against 50 per cent of the 1910 crop and 52.5 per cent of the 1909 crop so shipped.

Attention is called to the following statements obtained from the United States Department of Agriculture, showing the extent of the wheat, corn, oat, rye and barley crops of various countries for a series of years:

REAL ESTATE

J. C. WOOD, Chairman Real Estate Committee

The amount collected in the Real Estate Department, comprising rents, electric lights, etc., amounted to \$139,865.43, as against \$135,558.68 in 1910. The bonded indebtedness has been reduced during the year, \$50,000.00, and now stands \$994,300.00 bearing 4 per cent interest, payable on the first day of June and the first day of December each year. The Board holds uncanceled bonds amounting to \$67,100.00 par value.

The amount paid for repairs on the building was \$13,951.17, as against \$6,369.34 paid in 1910. The increase is partly accounted for by the expenditure of \$4,364.55 for repairs on the old storage battery, which were contracted for in 1910, and, therefore, an expense inherited by the Real Estate Committee. The expenses of 1910 were brought down to the lowest point consistent with safety in view of the possibility of erecting a new building. The project of the new building being abandoned for the

time being, there was necessity for more than ordinary expense attending the building in 1911.

The Board received \$1,850.00 as interest on building bonds held by the Association. Taxes on personal property amounted to \$98.80 as against \$432.90 paid in 1910.

MEMBERSHIP

The membership of the Board on the 8th day of January, 1912, numbered 1,627, showing a reduction of 20 during the year.

The pro rate amount assessed by the Board of Directors, under the provisions of Section 5 of Rule IV, for the ensuing fiscal year, is \$75.00.

FOURTEENTH ANNUAL REPORT OF THE WEIGHING DEPARTMENT OF THE CHICAGO BOARD OF TRADE

H. A. FOSS, Weighmaster

January 2, 1912.

MR. EDWARD ANDREW, Chairman,
 Weighing Committee, Board of Trade of the City of Chicago.

DEAR SIR:

I take pleasure in transmitting to you this my fourteenth annual report concerning the work of the weighing department.

During the year 1911 the department weighed 311,231 cars, of which 192,742 were received into elevators, warehouses and the various manufacturing plants; 111,630 cars were shipped out; and 6,859 cars were transferred from car to car. The department weighed 87,407,170 bushels of grain to and from vessels and canal boats, and 26,357 bags of seed. The total quantity of grain weighed, figuring on the basis of 1,250 bushels to the car, reached approximately 476,500,000 bushels, of which 389,000,000 bushels were transported by cars, and the remainder by lake craft. This is 8,316 more cars, 23,206,835 bushels more grain to and from vessels, and 5,370 more bags of seed than the department weighed during the year 1910.

We have received complaints of shortage on 2,599 cars. The shortages on 803 of these were accounted for.

In discussing the subject of shortages at this time, it is appropriate to mention the fact that a large percentage of complaints that were received concerned grain the weights of which were determined by estimating the quantities loaded. I would also call attention to the fact that on 1,051 of the 2,599 cars reported short in weight, the amounts of discrepancy complained of were not given.

The average vessel shortage this year is 16.4 pounds on each 1,000 bushels of grain handled. This, as compared with the average for last year, is a reduction of 7 pounds per 1,000 bushels.

The demands on the scale inspection department have been increasing largely, especially from country points. On account of this increased demand for our services in this connection, we were compelled to add to this branch of the service another scale inspector. In this regard we were very fortunate in being able to secure a man of recognized ability. This addition to our scale inspection force has enabled us to meet all the demands from the country for scale inspections. In this connection I wish to say that the results of these trips have been very gratifying, as they have eliminated many otherwise permanent causes for shortage and the resultant ill-feeling. During the year we tested the scales at 60 country elevators, containing 115 scales. We found 82 of these, or 71 per cent out of order. The records of the year's work show that we tested various scales in Chicago and country points, as follows:

730	hopper scales, of which	166	were found incorrect.
170	track scales, of which	38	were found incorrect.
68	wagon scales, of which	45	were found incorrect.
33	small scales, of which	13	were found incorrect.

This makes a total of 1,001 scales, of which 252, or 25 per cent were found incorrect.

On account of the number of scales at country points found out of condition by the department, and on account of the careless, slipshod manner in which many shippers have been caring for their weighing machines, all of which is conducive to inaccuracy, contention and ill-feeling, we compiled a circular letter entitled, "Helpful Hints for Wide-Awake Weighmen," which we distributed to the grain trade throughout the states of Iowa and Illinois. The demand for this circular letter from railroads, too, necessitated the printing of 6,000 copies.

We also compiled and distributed an illustrated placard entitled, "How to Prevent the Leakage of Grain." This placard illustrated effective methods of preventing leakage of grain from cars by the intelligent application of burlap, and was well received. In fact, in addition to the 5,000 copies sent out by the weighing department, various railroad companies, with our consent, reproduced the placard and distributed many thousands more.

In addition to this placard on how to prevent the leakage of grain, we compiled a leakage table showing the various points of cars where leakage most frequently occurs. This table covered the cars examined by the

department during the past 5 years; and although originally we only had 1,000 copies printed, the demand from the railroads and shippers for the table was so great that it was necessary for us to have 22,000 copies printed. Our experience has shown that literature of this character goes a long way toward the elimination of errors, and towards decreasing shortages and promoting harmony.

As the cause for many of the shortages at Chicago go unexplained, the stealing of grain in transit or stored in railroad yards is a matter of great importance; and in this connection our policing force has been doing effective work during the past year, and our efforts have resulted in 67 arrests. Of these 18 paid fines of two hundred and eighty dollars; 12 were sent to the John Worthy School; 23 boys were paroled to juvenile officers; and 14 were discharged.

Turn now to the custodian department, which was inaugurated June 14, 1911. This bureau has passed the experimental stage, and is working out to the entire satisfaction of all concerned. Not only has the department proved a protection to the sellers of grain, but also to the elevator operators and to the banks. The elevator people, for their part, are exchanging custodian car certificates for round-lot custodian certificates, which the banks are accepting as secured collateral. In connection with the running of the department, we have seventy employees each under a \$5,000.00 bond with the American Surety Company, while those who are authorized to sign the custodian certificates are each under \$40,000.00 bond. The practice at the elevators includes the weighing of all grain in and out of the houses that are under the supervision of the custodian department, men being stationed up and down stairs to look after the weighing, unloading and loading of the grain. We also have inaugurated a system of seals, by which it is impossible for the elevators to run their machinery, when we are not present, without evidence of it being apparent to us. This sealing system includes devices for sealing the railroad tracks, elevator doors, or elevator engines, according to the conditions prevailing at the various plants. As an additional precaution we have an estimating force, which is continually estimating the quantity of grain in the elevators. We aim to estimate quantity in each elevator at least once a month, and oftener if deemed necessary. We also estimate the amount of shrinkage incidental to handling and cleaning the grain, and make deductions in the stocks accordingly; and we verify these estimated shrinkages by weigh-overs from time to time.

The system we have inaugurated for handling the clerical part of the custodian business, such as making records, issuing custodian certificates

and providing for their delivery with the least delay, is along the lines in vogue in the weighing department, and this system has proved very satisfactory. Our office is open from 6:30 o'clock in the morning to 6:00 o'clock in the evening, and during the busy season we have some of our clerks in both the custodian and weighing departments work extra hours, so that we are enabled to deliver both the weight certificates and the custodian certificates promptly.

It is with regret that I have to announce that Mr. A. E. Schuyler, who has acted as my assistant for many years, and who has been with the weighing department for the past 17 or 18 years, his services beginning during the regime of Mr. John Walker, has resigned to accept an offer of Mr. J. A. McNulty, Agent for the Grain Door Reclamation and Car Cooperage Bureau.

You will find attached the financial report for the year.

All of which is respectfully submitted.

TRANSPORTATION DEPARTMENT**WILLIAM M. HOPKINS, Manager****GENTLEMEN:—**

I beg to herewith submit brief summary of the work of the Transportation Committee for the year 1911.

Rate adjustments of the greatest importance to this Board and on which this Committee has been working for some time have been brought to completion. Besides, many matters of lesser importance but of value to this market, have been accomplished.

READJUSTMENT OF RATES TO THE SOUTHEAST

For many years the tariff adjustment of rates from territory west of the Mississippi River has been such as to prevent any movement of grain from that section through Chicago to points in the Southeast. The Missouri River markets, St. Louis and the Ohio River markets have enjoyed a monopoly of that business except at such times as Chicago could get in during the old cut-rate days prior to 1906.

On November 13, 1911, the Commission rendered a decision in the so-called Rosenbaum case after having had the matter before them for two years. Under this decision the Chicago grain merchant can draw grain from territory west of the Mississippi River, including Missouri River points, and market it at points in the Southeast on a basis of rates equal to the combination made through Peoria, St. Louis and Ohio River gateways.

The importance of this decision to this market is readily seen as it opens up new territory for distribution. Your Committee believes that the increased business which will result to the members from securing this additional territory justifies the maintenance of the Transportation Department if no other thing had been accomplished during its existence up to the present time. Furthermore, this Committee believes the members should know that this result was accomplished by the Transportation Committee without any expense for legal fees in prosecuting the case before the Interstate Commerce Commission, where it was most bitterly contested on the part of the Southern railways who desired to keep Chicago out of that territory and retain it for the Ohio River markets.

CHICAGO A RATE BASING POINT

In the report of the Transportation Committee for 1910, reference was made to the effort toward making Chicago a rate basing point and minimizing the use of transit. This work has been prosecuted during the year and the roads have finally announced the date of effectiveness of Illinois Specific Rates and cancellation of through tariffs from Illinois points, as April 1.

The important benefits resulting from this rate adjustment are:

First: More than \$500,000 which is now tied up in freight refunds will be released.

Second: The same rates will apply on grain to be reshipped by water as on grain to be reshipped all rail.

Besides, the use of transit will be minimized and consequently the expense of handling your transit accounts will be correspondingly reduced.

ELEVATION ALLOWANCE

Since the report of the Transportation Committee a year ago the Supreme Court has decided that the railway companies may pay for the service of transferring grain. It is expected that the result of this decision will be that the transfer allowance paid at Chicago will not be disturbed.

EQUALIZED RATES

In the opinion of the Committee, the measure of rates themselves is of less importance than the comparative relation of rates to this market and to other competing markets. It was found that it cost less to handle grain from Kansas City to Buffalo via Milwaukee than via Chicago, by reason of the C. M. & St. P. Ry. Co. transferring the grain from cars to vessels through its own elevator at Milwaukee at a charge less than the same service could be secured through any elevator at Chicago. This Department succeeded in getting the railways to assume the cost of this transfer at Chicago, thus putting this gateway on a parity with Milwaukee on through shipments of grain via lake to eastern markets.

More than thirty cases similar to the above, dealing with discriminations in rates, rules or regulations, were acted upon by this Committee and in each instance the discrimination was removed. A detailed report of these cases can be obtained by application to the office of the Manager.

The policy of this Department remains unchanged, that is, of endeavoring to accomplish the needed reforms by co-operation with the railways. Recourse is had to the Courts or the Commission only when other remedies have been exhausted. It may be worthy of note that the policy of the

railway companies appears to be to increase their revenue by every means possible and to resist any changes that involve the slightest reduction in their revenue, regardless of the merits of the case. This Department has opposed every effort of the railways to advance rates unless a like advance to other markets was made.

During the year this Committee intervened in several cases before the Interstate Commerce Commission where our interests were involved and reparation claims aggregating more than \$14,000 were prosecuted and the money in each instance recovered for our members. In all these matters no expense was incurred for attorney's fees.

Your Chairman is pleased to advise that the use of the Transportation Department is much more general on the part of the trade than heretofore. It is the effort of the Department to encourage members to avail themselves of its services and an increasing number are doing so.

In conclusion, I beg to express to the members of the Transportation Committee, my appreciation of their loyalty and devotion to the work. Many meetings have been held and often at a considerable sacrifice of time to our members.

I desire also to acknowledge the conscientious and efficient services of the Manager of the Department and with the support of our members, continued beneficial results to this market through this Department are assured.

Respectfully submitted,

CHARLES B. PIERCE,
Chairman Transportation Committee.

REPORT OF LEGAL DEPARTMENT FOR YEAR 1911.

During the year 1911 a number of important matters, including the formulation of a plan for a new clearing-house system, have required the services of our legal department.

While the crusade against bucket shops has not been relaxed, the litigation during the year has not been extensive. Two new suits were started at Pittsburgh, against Harkless & Company, Keystone Commission Company, and Spuhler & Company, and permanent injunctions were issued, enjoining from using our quotations the following named defendants:

Isaac N. Harkless,
P. C. Harkless,
Harry O'Brien,
Harry Brown,
W. M. Rich,
George B. Lane,
Frank M. Keene,
James P. Keene,

Henry J. Spuhler,
Frank H. Spuhler,
William Heck,
Emerson Neeley,
Richard Gearing,
Verne L. Shoup,
George E. Fisher,
Frank Kennedy,
Frank Smith.

In the suit brought by the Board at Lincoln, Nebraska, against Herbert E. Gooch Company and others, to restrain the theft of quotations, not only was a permanent injunction obtained against Herbert E. Gooch Company, Herbert E. Gooch, L. B. Tobin, W. P. Archibald, William Clendenning, and Frank Sharpneck, but a very important decision was rendered, the court deciding that our quotations are not impressed with a public use, but are the Board's private property, which it may withhold from any person it pleases. This decision repudiates a contrary decision by the Supreme Court of Illinois in 1889.

In the proceeding for contempt at St. Louis against Frank J. Miner and others, the Board won a victory in the Circuit Court of Appeals, which dismissed the appeal. The defendants have applied to the Supreme Court of the United States to compel the Court of Appeals to change its decision. A decision is expected early in January.

The appeal of the Board in the litigation at St. Louis against Thomas E. Price, has been submitted to the Circuit Court of Appeals, but it has not yet rendered a decision.

William Lanyon of St. Louis instituted a suit in the Federal Circuit Court at Chicago against our Board and James E. Bennett & Company to restrain Bennett from settling with the other parties trades he had with them as Mr. Lanyon's broker, and also to restrain the Board from disciplining Bennett for not doing so. A corner was alleged to have existed. The case was heard upon application for a temporary injunction before Judge Kohlsaatt, and the court held it had no power to, and refused to, enjoin the Board from exercising its disciplinary functions. This practically ends the case as to the Board. The case is still pending against Bennett & Company, against whom an injunction has been issued.

In July a bill was filed in the State court at Chicago by the Board (joining with it a large number of shippers and receivers of grain) to prevent the putting into effect of an act passed by the last Illinois legislature requiring the payment of all fees of the State Grain Inspection Department into the State Treasury, and inhibiting their being disbursed without legislative appropriation and warrant of the State Auditor. Believing that this Act would seriously cripple the State Grain Inspection Department, a bill was filed attacking the constitutionality of the Act. Judge Dever in the State Court, however, decided against the complainants, and the Supreme Court of the State, by a recent decision, has affirmed his decree. A delay of six months was, however, secured through a temporary injunctional order, which will aid in dealing with an embarrassing situation until the next legislature can be appealed to for an appropriation to furnish adequate inspection service.

The suit for alleged personal injuries brought by one Austin Stanton against your Board and another defendant has been tried and decided in favor of the Board.

GRAIN SAMPLING DEPARTMENT

ROBERT P. KETTLES, Chief Grain Sampler

The amount received for sampling cars by the Grain Sampling Department of the Board, amounted to \$47,893.80, and disbursements, \$42,776.62, showing a surplus of \$5,117.18.

During the year the department sampled 112,997 cars of grain, and the total number of bushels sampled for lake shipment aggregated 36,498,647 bushels.

As indicating somewhat the volume of business transacted under the rules of this Board during the past year, we would state that the receipts of grain and flour in its grain equivalent for 1911, aggregated 291,367,982 bushels, as against 294,858,724 bushels during 1910. The shipments aggregated 221,429,014 bushels, as against 214,601,080 bushels during 1910.

The shipments of cured meats, in 1911, aggregated 550,849,300 pounds, as against 562,203,800 pounds, in 1910; of fresh meats, 870,704,600 pounds, as against 812,076,000 pounds in 1910; of lard, 302,699,100 pounds, as against 268,702,900 pounds, in 1910; of barreled pork, 105,913 barrels, as against 126,728 barrels, in 1910.

Receipts of all kinds of live stock at Chicago during 1911, aggregated 16,397,492 head, valued at \$339,484,690, brought in 271,660 cars; as against 14,452,490 head, valued at \$357,145,681, brought in 251,080 cars, in 1910.

In the administration of the affairs of the Board, your Directors have kept steadily and persistently in view the supreme importance of maintaining the integrity of the declared principles and objects of the Association; of the equitable adjustment of business controversies; the recognition of the intent of business contracts so far as that intent can be ascertained; of not permitting under any circumstances, technicalities, mere mistakes, or omissions, to obscure the evident intention of the contracting parties. Happily few occasions have arisen to call for the intervention in such matters of any of the tribunals of the board.

CUSTODIAN DEPARTMENT**H. A. FOSS, Custodian**

The primary object being to secure the receiving merchants of the Board in their sales to private warehouses

Your directors grappled successfully, under the lead of the President, with the problem which has confronted every directory since the establishment of the organization, viz.: to secure the absolute validity and integrity of grain warehouse receipts issued by private warehouses or elevators, located in Chicago, as collateral security. This problem your directorate has successfully solved by creating a "Custodian Department," as defined in Section 22 of Rule IV. The creation of this department is acquiesced in, and highly commended by the Chicago banks. It is not too much to say that this one act alone of the outgoing administration is of great satisfaction to your Board of Directors, to the trade; and is considered of incalculable benefit to our moneyed institutions, and not less serviceable, in a variety of ways, to our merchants; in fact, it is impossible to exaggerate the importance and value of this department. In achieving this result, we are pleased to recognize the hearty co-operation of the members of the board, who have always stood by the directory in the practice of the highest mercantile principles.

Failure to Deliver or Receive on Contracts

Another measure of great importance has been secured in the adoption of Section 1 of Rule XXIII, which effectively prevents so-called "corners," which have properly called forth criticism by legislators, both state and national, and by writers of more or less prominence upon the subject of political economy.

Much time and effort have been spent in acquainting the legislative bodies of the country and the public generally, with the active and practical functions of the grain exchanges of the country, especially those of the Chicago Board of Trade; also with the close and vital relation which these functions sustain to every industry—to the farmer, producer, grain dealer, banker, and to the people regardless of political affiliations.

It was soon discovered in prosecuting the campaign for the general diffusion of information as to grain exchanges, their purposes, their functions; and as to many and effective facilities created and sustained for the protection of all interests involved, that dealing in generalities, discussing abstract theories of political economy, were unproductive of desirable results; in fact, instead of being of benefit to the exchanges, were to these institutions a positive injury. Members of Congress who were desirous of obtaining a thorough knowledge of the grain exchanges of the country,

in order that they might enact such laws as would best promote the common commercial and industrial welfare, vainly sought, until this year, to obtain that information which only a practical grain merchant, exceptionally qualified by long, successful and extensive experience in the grain trade, could impart. This information has been given by your President and others to congressional committees, to various commercial bodies in different parts of the country, and in many publications. The country has long stood in need of facts with relation to the grain exchanges. In some instances your directors are reliably informed that members of congress regretted that they were not placed in possession of such facts before they passed upon pending bills relating to the grain exchanges of the United States.

MARKET REPORT DEPARTMENT

The work of the Market Report Committee has brought forth satisfactory results; persistent vigilance has characterized its efforts in order that no "bucket shop" may secure the quotations of the board which the courts have decided are the property of the association.

Your Directors respectfully urge that work along the lines set forth in the foregoing report be energetically pursued by the new administration.

NOTE—The inspection department shall, in no case, make a grade of grain above that of the poorest quality found in any lot of grain inspected, when it has evidently been plugged for the purpose of deception, or otherwise improperly loaded.

NOTE—Wheat which has been subjected to scouring, or clipping, or any process equivalent thereto, shall not be graded higher than No. 3.

NOTE—The department will, in addition to the grading of Spring Wheat, give dockage and grade if cleaned.

NOTE—The word "NEW" shall be inserted in each certificate of inspection of a newly harvested crop of oats until the fifteenth day of August; of rye, until the first day of September; of wheat, until the first day of November, and of barley, until the first day of November of each year.

This change shall be construed as establishing new grades for the times specified, to conform to the existing grades of grain in all particulars (except the distinctions hereby established between the new and the old crop), and shall apply to grain inspected from store for two months after the time respectively above specified.

NOTE—All inspectors shall make their reasons for grading grain, when necessary, fully known by notations on their records. The weight alone shall not determine the grade.

NOTE—All inspectors must ascertain the weight per measured bushel of each lot of wheat inspected by them and report the same in their records.

W. S. COWEN,
Chief Inspector of Grain.

NOTE.—Prior to the year 1820 no official records of the arrival of alien passengers were kept. It is estimated, however, that the total number arriving in the United States from the foundation of the government to the year 1820 was 250,000.

Up to the year 1856 no record was kept of immigrants in distinction from the arrival of alien passengers.

Of the number of immigrants arrived during the year ended June 30, 1911, there came from
 Un'd Kingdom.....102,498 Norway.....13,950 Aus. Hungary.....159,057
 Germany.....32,061 China.....1,430 Sweden.....20,780
 Italy (including Sicily and Sardinia).....182,882 Russian Empire.....158,721

The total number of European immigrants for the last fiscal year was 764,757.

Of the total number of immigrants for the year, 570,057 were males and 308,530 were females.

The year ended June 30, 1907, has been the year of the greatest immigration.

Owing to the absence of law for the collection of statistics in relation to immigrants by railroads, those from the British North American possessions and from Mexico were not included from July 1, 1885, to June 30, 1895.

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of real estate and personal property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law. Since 1868 the valuations are as equalized. The total valuations in each of the several years are correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, especially those of railroad property.

The valuations for 1899 to 1908 inclusive are the one-fifth of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898. The valuation for 1909 and subsequent years is the one-third of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1898, as amended by an Act approved June 12, 1909.

The State debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1872 to 1879, as it stood December 1.

CHICAGO REAL ESTATE AND PERSONAL PROPERTY.

Assessed valuation of real and personal property in the City of Chicago, by Towns, for 1911.

Beginning with the year 1909, in accordance with an act passed by the State Legislature increasing the assessed valuation of property from one-fifth to one-third of the full value, the assessed valuation of property for tax purposes, herewith given, as assessed by the Board of Assessors, then reviewed by the Board of Review and finally equalized by the State Board of Equalization, is one-third of the assessed actual, or full value.

G. It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one of whose general partners is a member, or for corporations entitled under Section 8 of this rule to members' rates, one-half of the foregoing minimum specified rates shall be charged and shall be the minimum rates in such cases.

H. It is further provided that to members who personally do their own buying and selling, but who clear their trades through other members, the minimum rates of commission on all transactions opened and closed *within ten days* shall be twenty-five cents per 1,000 bushels of grain, one cent per package of pork, three dollars per lot of 250 tierces of lard, and five cents per 1,000 pounds of D. S. short ribs or D. S. extra short clears.

It is further provided that the minimum rates of commission on all such trades as *are not actually closed within the prescribed limit of ten days*, shall be members' rates; but the clearing member may pay the principal the rates of brokerage prescribed in Section 2 of this Rule, as compensation for executing such trades. It is expressly understood that all such transactions shall be for the personal account of the member, firm or corporation for whom the trades are cleared, and in no case, directly or indirectly, on behalf of any other person, either wholly or in part.

If a broker is employed to execute any portion of such trades, the party employing such broker shall pay the brokerage thus incurred, the minimum rates for such service being those prescribed in Section 2 of this Rule.

Hence, on trades made in wheat, corn or oats, whether opened and closed within 10 days or not, the principal shall pay the clearing member (per 5,000 lot).....	\$3.75

F. Whenever members of this Association, acting as principals or agents, shall have made a purchase of any of the property mentioned in this section, to arrive, or in transit, such members shall notify in writing, the party from whom such purchase was made, of the price and terms of such purchase on the same day upon which the transaction takes place.

These requirements shall apply only to shipments from country points, either to Chicago or to other markets, if purchased in Chicago market, whether such property is to be shipped or is in transit.

BUYING OR SELLING VESSEL LOTS.

SEC. 6. A. The following rates of commission, being just and reasonable, are hereby established for receiving and selling, or for buying and shipping the following described property by vessels:

CORPORATIONS.

SEC. 8. A. Any corporation having for one of its executive officers and stockholders a member of this Board, may submit to the Board of Directors, or a committee appointed for such purpose, a full disclosure of the relations of such member to such corporation, and if such member shall, upon investigation, be found to be a real bona fide and substantial executive officer and stockholder of such corporation, and that such relation is not created for the sole purpose of obtaining members' rates, such corporation shall be thereafter, and so long as such member shall remain such officer and stockholder, entitled to members' rates provided in this rule; *provided*, that for the purpose of this rule, not more than one corporation can be represented by the same member of this Association as its executive officer.

Whenever any such corporation shall be so found entitled to members' rates, it shall, whenever requested by the Board of Directors, or such committee, make a full disclosure of the then existing relations of such member to such corporation. If it shall refuse so to do, its right to members' rates shall thereupon cease.

C. No firm or corporation shall enjoy members' rates by virtue of a membership in the Chicago Board of Trade in the name of one of its members, if a firm, or in the name of one of its executive officers, if a corporation, if said member of the Board shall at the same time be a member of a firm, or president or secretary of a corporation, represented in the membership of the Clearing House of the Board of Trade. One membership shall only secure members' rates to one firm or one corporation.

CONSTRUCTIONS.

SEC. 9. A. On all transactions where the purchase or sale of cash grain is made contingent on the price ruling for future delivery, and where the purchase or sale of the future delivery is at once accomplished, fixing by such transaction the value of the cash grain so bought or sold, it shall be construed that the purchase or sale of the future delivery shall be a part of the cash transaction. Should the purchase or sale of grain for future delivery upon which the cash transaction is based be held subject to the convenience or subject to the orders of the parties with whom such transaction is made, then all such business for future delivery shall be subject to the regular rates of commission as prescribed in this rule.

B. In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such

Free telegraphic communication, however, shall not be construed as a violation of this rule.

G. The Board of Directors is authorized to offer a reward of not more than twenty-five hundred dollars to any person who shall furnish evidence that does convict any member, firm or corporation of a violation of this rule.

In case any member neglects or refuses to indorse a certificate of deposit to the party entitled to receive the money thereupon when all contracts upon which the deposit is applicable are settled, and all money due upon such contracts has been paid, he shall be liable to a penalty of one per cent. per day on the amount of such certificates, for every day such refusal or neglect is continued; and for refusal to promptly pay such penalty, the party may, upon due complaint, be suspended from all privileges of the Board until the same is paid. REGULAR DELIVERIES.

Tender of
warehouse
receipts.

SECTION 1. All deliveries upon contracts for grain or flax seed, unless otherwise expressly provided, shall be made by tender of regular warehouse receipts, which receipts shall have been registered by an officer duly appointed for that purpose. All such warehouse receipts shall be made to run five days from date of delivery on regular or customary storage charges, which regular or customary charges shall follow such warehouse receipts and be chargeable upon the property covered by the same, and shall be issued by such houses as have complied with the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors, and have been declared regular warehouses for the storage of grain or flax seed by said Board of Directors; and it shall be the duty of the Board of Directors, prior to the first day of July in each year, to inspect all warehouses, the proprietors or managers of which shall apply to have their receipts declared regular for delivery on contracts under the Rules of the Board of Trade, and no warehouse shall be declared a regular warehouse unless it is conveniently approachable by vessels of ordinary draft and has customary shipping facilities, and unless the storage rates on all grain or flax seed in such warehouse in bulk and in good condition, shall not be in excess of three-quarters ($\frac{3}{4}$) of one cent per bushel for the first ten days or part thereof, and one-fortieth (1-40) of one cent per bushel for each additional day thereafter until from and after July 1, 1910, when the storage rates shall not be in excess of one (1) cent per bushel for the first ten days or part thereof, and one-thirtieth (1-30) of one cent per bushel for each additional day thereafter so long as such grain or flax seed remains in good condition, and unless the proprietors or managers of such warehouse are in good financial standing and credit, and are carrying on and intend to continue to carry on the legitimate business of public warehousemen under the laws of the State of Illinois and in accordance with the Rules of the Board of Trade of the City of Chicago and the Regulations and Requirements of the Board of Directors and until the

proprietors or managers of such warehouse shall file a bond with sufficient sureties in such sum and subject to such conditions as may be deemed necessary by the Board of Directors, under the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors in reference to warehouses. ^{Bond, sufficiency of.}

And furthermore, the proprietors or managers of such warehouse shall be required to sell their regular contract grades of grain or flax seed in the Chicago market only, and shall not ship any grain from any regular warehouse, of which they are proprietors or managers, except those grades which are denominated and understood to be "off grades"; *provided*, however, that the Board of Directors of the Board of Trade may, upon application, grant to such elevator proprietors or managers the privilege of shipping such quantity of grain from their elevators as will sufficiently relieve such elevators from being overloaded, or as will maintain the condition of such grain; and furthermore, the proprietors or managers of such warehouse shall be prohibited from buying grain at any non-competing points. ^{Shipments by proprietors—only "off grades."}

Whenever application shall be made by the proprietors or managers of any warehouse to have the same declared a regular warehouse for the storage of grain and flax seed under the provisions of this Rule (except in cases of renewal on the first day of July in each year, as hereinbefore provided) any grain or flax seed that may be contained in said warehouse at the time of such application, shall be required to be removed from said warehouse, when after it shall have been graded and inspected according to its quality and condition then existing by the duly constituted authorities, such grain or flax seed may then again be received into said warehouse and receipts issued therefor shall be registered and dated upon the day when such grain or flax seed is again actually received into said warehouse. ^{Requirement for removal of grain from warehouses applied to be regular.}

The chief inspector of grain of the State of Illinois may, upon request of the Board of Directors of the Board of Trade, appoint a supervising inspector who shall so supervise the storage and distribution of grain and of flax seed in such warehouse that no discrimination or selection can be made in the quality or grade of grain or flax seed in the delivery of such grain or flax seed. ^{Supervising inspector.}

Warehouse receipts issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse, but the term for which any warehouse is declared a regular warehouse to issue such receipts shall be limited to and expire on the first day of July in each year. No receipts issued on grain received in any warehouse shall be regular for delivery under the Rules of the Board of Trade after that date unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; *provided*, however, that receipts issued before the first day of July by warehouses which have been regular warehouses during the preceding year, but which have not been declared regular for the succeeding year, shall be regular for delivery upon such contracts for six months after the first day of July; but nothing contained herein shall prevent the Board of Directors from declaring any warehouse, or the receipts thereof, irregular at ^{Warehouse receipts.} ^{Term of regular warehouse.} ^{Life of warehouse receipts.}

any time for violation or non-compliance with the laws of the State of Illinois or any of the Rules of the Board of Trade or of the Regulations and Requirements of the Board of Directors.

Emergency clause.

Provided, that the Board of Directors shall have power, when in their judgment an emergency exists requiring more storage room than can be supplied by the regular elevator warehouses, or **because of an inability to obtain insurance on grain stored therein**, to declare any storehouses, vessels, or places suitable for the storage of grain or flax seed within the Chicago Switching District—wherein the cost of delivery to vessels or railroad cars shall not be greater than such as is made by the regular elevators for the same service—to be regular places for the storage of grain deliverable under the Rules of the Board of Trade.

Limitation of aggregate capacity of warehouses made regular under emergency

And *provided further*, that in case it shall happen that at any time there shall be no warehouses which shall be regular warehouses for the storage of grain and flax seed, then the Board of Directors may declare any warehouses suitable for the storage of grain or flax seed, whose aggregate capacity shall not exceed twenty-five million (25,000,000) bushels, regular warehouses for the storage of grain or flax seed, upon such terms and for such period as the Board of Directors in its discretion may deem necessary or proper, and the warehouse receipts issued by warehouses so declared regular under this proviso, shall be regular for delivery on contracts under the Rules of the Board of Trade, in the same manner as if issued by warehouses declared regular under the foregoing provisions of this section in regard to declaring warehouses regular for the term ending on the first day of July in each year.

All complaints against elevator proprietors under this section shall be heard and decided by the Board of Directors of the Board of Trade of the City of Chicago.

Deliveries, when and where made

SEC. 2. All deliveries of grain and flax seed in 1,000 and 5,000 bushel lots; of mess pork, lard or s. p. hams, in 50 and 250 package lots; or of meats in lots of 25,000 and 50,000 lbs., in store, on time contracts, shall be made between 9:30 A. M., at the office of the clearing member who has the property bought, or shall be made in the Exchange Hall, or in such other place as may be designated by the Board of Directors between the hours of 1:30 and 2:00 o'clock P. M., except as hereinafter provided. All such deliveries shall be made by a notice in writing, which notice shall state on its face the place of business of its issuer. Such notice shall state in detail the warehouse receipts proposed to be delivered, and in the case of provisions in packages, or lard, the packer's brand, and the contract price on which delivery is proposed to be made, also the net cash value (deducting extra storage) of said property at the market price. Twice each day at stated hours, it shall be the duty of the Secretary to post or cause to be posted, in a suitable place, the market price of such grain or provisions as are deliverable on time contracts. The first price posted shall be applicable to deliveries between 9:30 o'clock and 11:00 o'clock A. M. The second price posted shall be applicable to deliveries between 1:30 and 2:00 o'clock P. M. Description of procedure.

case may be, by indorsement thereon by the seller, of the name of the party to whom it is to be delivered, together with the contract price at which the property is sold, and also the time at which the delivery is made. In the case of deliveries made outside of the buyer's office, as provided above, the first delivery of such notice shall be made before 1:35 o'clock P. M., and any party holding such notice longer than five minutes as shown by the indorsement on same of the time of the previous delivery, shall not be permitted to deliver it. Provided, however, that on the last business day of any month a party having grain bought in 1,000 bushel lots and sold in 5,000 bushel lots may deliver five 1,000 bushel lots on 5,000 bushel lot contracts not later than five minutes after having received the last 1,000 bushel lot, by attaching the five notices firmly to each other and making the usual endorsement upon the last notice, as hereinbefore provided. Any person indorsing upon said notices any fictitious name or the name of any person, firm or corporation other than that of the person, firm or corporation to whom he tenders the notice upon a bona fide sale of the property mentioned therein, actually made by himself, or the firm, or the corporation he represents, or upon the written order of another member, firm, or corporation on whose behalf he makes such tender, or who shall make any alteration therein, or any substitution of property other than that originally named in the notice by the original issuer thereof, shall be deemed guilty of gross fraud, and, if a member, he shall be suspended or expelled, at the discretion of the Board of Directors; and if not a member, such person shall be permanently excluded from the rooms of the Association. All delivery notices issued under this rule shall be consecutively numbered by the parties issuing them. Notices of readiness to deliver property as herein provided, and all subsequent transfers of such notices, shall be deemed and held to be a valid and sufficient tender of property, on time contracts, under the Rules of this Board of Trade, provided the property is actually delivered, or is shown to have been ready for delivery, in the manner and upon the terms herein provided. It shall be the duty of the party regularly holding such notice at 2:00 o'clock P. M., to present the same at the office of the issuer before 2:30 o'clock P. M., and of the party regularly holding such notice at 11:00 o'clock A. M. to present the same at the office of its issuer before 11:30 o'clock A. M. of the same day, together with a certified check on some Chicago bank in good standing, or other satisfactory payment for the net amount due for the property represented by any or all of said notices, at the market price; and upon tendering said notice, or notices, with payment, at the office of its issuer, the holder of said notice or notices, shall be entitled to receive the property represented by same. All differences due from, or to parties to such delivery shall be paid upon the basis of a full delivery, and no more, and each purchaser receiving notice of delivery, shall be responsible to the seller from whom the notice was received, for the difference between the price actually paid for the property and their contract price. In cases where the seller's contract price is less than the price actually paid for the property, such seller shall be responsible to the purchaser to whom he delivered the notice, for the difference. All such differences shall be due and payable immediately upon the delivery and payment for the actual property; it being the duty of each person transferring the delivery notice to ascertain what price was actually paid for the property.

On the first business day of each month all deliveries on time contracts of the kinds of property mentioned in this section, if delivered Differences, when due and upon what based.

Mode of settlement. All differences between the price paid for the property and any contract prices involved in its delivery, due to or from parties to such delivery, shall be adjusted and paid in the same manner and with the same liabilities as in the case of delivery made under this section between 1:30 and 2:00 o'clock P. M., as the case may be. Any property which cannot be delivered owing to the absence of the buyer from the Exchange Hall, or such other place as the Directors may have designated for the purpose of delivery, may be sold out by the party having same sold to such absentee, as hereinbefore provided in cases of default; all expenses and risk of carrying the property, commissions, etc., shall be paid by the absentee, the same as in case of default; provided, however, such property shall not be sold until the absentee has had notice in writing, either delivered to him in person, to his business representative, at his place of business, or left at the Secretary's office in case he has no regular place of business, that the property was ready for delivery under this Rule on his contract. In case it should appear on complaint duly made to the Board of Directors that any member has been guilty of issuing a notice of readiness to deliver property as herein provided, who had not the property mentioned in such notice, in his control or possession at the time of issuing such notice, or, having issued such notice, shall thereafter dispose of the property, except as herein provided, or who refuses to deliver up such property when demanded, as provided for under this Rule, such party shall be deemed guilty of gross fraud, and shall be suspended or expelled from membership in this Association, under the provisions of Rule IV.

Power of Secretary to extend deliveries on last business day of month

And provided further, that on the last business day of any month, when deliveries of articles mentioned in this Section are made after 11:00 o'clock A. M., the Secretary of the Board, or any person acting under his direction, shall have the power to extend the time for such deliveries from 2:00 o'clock P. M. (if on a Saturday, from 1:00 o'clock P. M.), as often and to such time during that day as in his judgment it may be necessary to enable all, who are prepared to do so, to tender or receive delivery notices. When any extension of time is made under this proviso, it shall be announced in the Exchange Hall, or in such other place as may be designated by the Board of Directors for the purpose of making deliveries, on or before the expiration of the time hereinbefore stated for the termination of such deliveries; in the event of the extension of the time for deliveries as herein provided, wherever the time stated in this rule would be affected by such extension, such time shall in all cases be correspondingly extended.

Purely technical provisions no pretext for the avoidance of contractual obligations under this rule.

It is the object and intent of this Section that all contracts for the purchase and for the sale of commodities mentioned therein shall be carried out in absolute good faith, it being expressly understood that in construing this Section its purely technical provisions—the principal purpose of which is to facilitate deliveries—must not be used as a pretext to evade the obligations of a contract. Any violation, however, of any of the provisions of this Section with intent to thwart or impede deliveries shall be deemed dishonorable conduct under the provisions of Section 9 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

Any excess or deficit within the above limits shall be settled for at the current market upon the day of delivery.

No individual, firm or corporation shall make tender upon contracts for grain or flaxseed as hereinbefore provided until such grain or flaxseed is covered by insurance to at least 85 per cent of their market value, such insurance to cover purchaser until 12 o'clock noon of the next business day after the day of delivery, provided, upon request of purchaser on day of delivery seller shall give purchaser an order for the cancellation and rewriting for the purchaser of such insurance to the extent of 85 per cent of the market value of the property so delivered, and the seller shall pay premiums on any insurance thus designated until noon of the next business day following delivery.

Obligation to furnish disinterested certificates of weight.

It shall be the duty of members of this Board, or of firms or corporations represented in its membership, either acting as commission merchants in the sale of grain or flaxseed on the Chicago market, or acting as purchasers of grain or flaxseed at country points, when Chicago weights are the basis of settlement, to furnish the consignor or seller, as the case may be, a Board of Trade or disinterested cer-

tificate of weights. The proportion of the cost of such weighing paid by the commission merchant or purchaser, in accordance with the provisions of this section, shall be charged to the consignor or seller.

Sac. 14. Whenever grain or mill feed is sold by sample, the purchaser must accept or reject such grain or mill feed by 11:00 o'clock A. M. of the business day next succeeding the day of purchase, unless it shall have been impossible for an official Board of Trade sampler to sample such grain or mill feed by that time. If it be impossible to sample such grain or mill feed within the time specified it shall be the duty of the purchaser to notify the seller by 11:00 A. When sales are made by sample and the official sampler reports cars "too full for thorough examination," it shall be the duty of the buyer to notify the seller of such fact before 11:00 o'clock A. M. of the business day next succeeding the day of purchase, and of his intention to re-examine such cars at time of unloading or transfer.

Duty of seller to buyer and vice versa.

Whenever grain, mill feed or seeds are sold to be switched or delivered to connecting lines, or when sold for shipment beyond Chicago, it shall be the duty of the seller to order such property in accordance with the written instructions received from the buyer within twenty-four hours after the receipt of such instructions—Sundays and holidays excepted. If the purchaser fails to provide by the close of the next business day after date of purchase such written instructions, then the property involved shall be at his risk in all particulars.

Duty of seller in sales of grain, etc., for shipment.

In case the seller shall fail to order the property as hereinbefore provided, it shall be his duty to promptly notify the purchaser the next day of such neglect, and the purchaser may for such reason cancel the purchase; but such cancellation, if made, must be made immediately.

As to cancellation of purchase.

On all property sold as hereinbefore provided, a delivery by the railroad over which the property arrives, to the designated railroad shall be construed as a delivery, and the seller's responsibility for damages or loss on any account shall cease, after delivery to such connecting line or railroad.

On all property not transferred or unloaded within the seven business days, for any reason whatsoever, the purchaser shall pay eighty (80) per cent of the value of the grain—on demand—for the grain so delayed, based on shipper's weights or based on the capacity of the car; subject, however, to final adjustment based on official weights at Chicago, or as may be otherwise agreed between buyer and seller.

Sec. 15. On all grain, mill feed or seeds consigned to any member of this Board, or to any firm or corporation duly represented in its membership; or bought by any member thereof, or by any such firm or corporation, and shipped to Chicago or any common Chicago points, subject either to Chicago weights or inspection, or both Chicago weights and inspection, the receiver or the purchaser, as the case may be, shall charge the current rate of interest on any sum advanced on such consignment, or purchase; provided always, that the minimum rate of interest so charged shall be at the rate of five (5) per cent per annum.

Any violation of the provisions of this section shall be subject to a penalty of suspension from all the privileges of this Association, or of expulsion therefrom, according to the discretion of the Board of Directors.

All bills rendered for grain, seeds, millstuffs, straw and hay, sold by grade, or by sample, or by grade and sample, either after arrival or to arrive, unloaded on regular or private tracks, or in private elevators or warehouses, or in any manner as may be agreed upon between buyer and seller, if delivered at the office of the buyer by 2.00 P. M., shall be paid by 2.45 P. M. the same day, except that on Saturdays all bills delivered by 11.20 A. M. shall be paid by 11.50 A. M. the same day; provided that the regular team track weight tickets, or official Board of Trade weight tickets, or other disinterested certificates of weight, shall be attached to the invoice, together with a proper receipt for the country bill of lading and a certificate of inspec-

tion. Failure to deliver the freight bill from the originating line shall not be construed as a sufficient reason for refusal of payment for such property. On all property sold as above described, where the weights are not available to the seller, but are in the regular course of business first delivered to the buyer, weight tickets with checks covering payment shall be delivered on the day next succeeding the date on which it is unloaded, by 2.45 P. M. on any regular banking day, or by 11.50 A. M. on Saturdays. Board of Trade holidays that are not legal holidays or are not made holidays by the clearing house banks shall not be considered as granting the buyer any time beyond that provided in this rule.

When any member, or any firm of which a member of this Association is a member, or any corporation of which a member is an officer, shall violate any of the provisions of this section, such member, or such member of such firm, or such officer of such corporation, shall be deemed guilty of dishonorable conduct under the provisions of Section 9 of Rule IV of the rules of this Association.

SEC. 17. In making contracts, a specific number of days shall be mentioned, and shall mean calendar days, excluding date of sale in which to load and ship the grain from the date of the receipt of full shipping directions at point of shipment.

SEC. 18. It shall be the duty of the Board of Directors upon the nomination of the President to appoint a standing committee of seven ^{Grain Committee} members of the Association, to be known as the "Grain Committee," to serve for one year, or until their successors are appointed.

Whenever grain is sold subject to the "approval of official samplers," either as to sample, grade or condition, any party to the transaction may appeal from the decision of the Official Sampler to the Grain Committee, and the decision of the Grain Committee shall be final and binding upon all parties interested. ^{Right of Appeal.}

The delivery of samples of grain in the Exchange Room by non-members, through any department of the Board of Trade, in competition with members of the Board of Trade, is prohibited.

No member of the Grain Committee shall sit on any case in which ^{Disinterested Committee.} he is directly or indirectly interested.

The President of the Board of Trade shall select another member ^{Form of Making Appeal.} of the Association to serve in the place of any regular member who is disqualified or unable to serve. When an appeal to the Grain Committee is desired under this rule, such appeal shall be made in writing to the Secretary of the Chicago Board of Trade, and the fees, as hereinafter provided, shall accompany said appeal.

The fees shall be \$5.00 per car; \$10.00 per canal boat, \$50.00 per ^{Fees of Grain Committee.} vessel. Such fees shall be equally distributed among the members serving. In case the Grain Committee shall decide in favor of the

appellant, the appellee shall, within one business day, reimburse the appellant with the amount of the appeal fees, as hereinbefore provided, and further pay all additional expenses incurred by the Grain Committee in securing samples and conducting the case.

The Grain Committee may decide an appeal either by examination of the grain in car, boat or vessel; or by sample obtained in such manner as in their discretion they may deem advisable.

The difference so obtained shall be considered the net weight of the lard.

Weight of lard in tierces.

SEC. 15. In case lard in tierces be delivered of a weight more or less than 340 lbs. net per tierce, the shortage or excess shall be settled for at the current market price, which for deliveries before 11 o'clock, shall be considered as the posted price of the previous day, but the full number of packages contracted for shall be delivered. The standard net weight of meats packed in boxes shall be between 475 and 525 pounds for each box, and in all settlements or deliveries of boxed meats an average of 500 pounds net per box shall be made the basis for settlement, and the excess or shortage from said average shall be settled at the market value of the property delivered at the time of its delivery. But in case of delivery the full number of packages contracted for must be delivered. ^{Standard net weight of meats in boxes.}

SEC. 18. Long clear sides shall not average less than forty-five (45) pounds; short clear sides shall not average less than thirty-five (35) pounds; and extra clear sides shall not average less than thirty (30) pounds nor more than sixty (60) pounds, to be a regular delivery on contracts. All dry salted meats, deliverable on contracts, shall be weighed in 25,000 pound lots, and the Inspector's certificate shall specify that they were so weighed; any two (2) lots of 25,000 pounds each may be of different averages, but must be of the same kind of ribs and in the same warehouse. Such shall constitute a regular delivery on sales of 50,000 pounds. ^{Shoulders.}

To take effect on and after January 1, A. D. 1907.

SEC. 19. Upon examination of dry salted meats, either in bulk or for boxing, by an official Inspector, if over 10 per cent is rejected the Inspector shall not be required to issue a certificate of inspection for the same. ^{Limit on rejected meat to be regular.}

RECOMMENDATIONS.

I.

The Committee on Flour Inspection recommend to millers and ^{Flour in} shippers of flour the following requirements of standard sacks: ^{sacks} ^{requirements.}

NO. 140—JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 40x49 inch mangled or craped finished material, weighing not less than 12 ounces per yard of 40 inches in width, or 15 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 16 ounces.

NO. 280—JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 50x63 inch mangled or craped finished material, weighing not less than 15 ounces per yard of 50 inches in width, or 25 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 26½ ounces.

Seamless jute sacks must be from same weight and quality of material, etc., but require 4 per cent less material, and may weigh 4 per cent less.

140 POUND COTTON EXPORT SACKS

II.

How to close sacks.

The Committee on Flour Inspection also recommend to millers and shippers of flour in sacks to be inspected in this market, that in closing the sack the mouth edge of the sack be turned in without rolling, and sewed with a single seam, the stitches to be at least $1\frac{1}{2}$ inches apart. (See Fig. 1.) This will allow the Inspector to insert the trier between the stitches without making holes in the cloth.

FIG. 1.

III.

How to load sacks.

The Committee on Flour Inspection further recommend to millers, shippers of flour, and railway agents, that in loading cars the following instructions be observed:

One hundred and forty pound sacks should be piled in two tiers lengthwise of the car, the mouths of sacks placed toward center of car (see Fig. 2), leaving the space between the tiers of sacks in the center of the car free and clear for the convenience of the Inspector.

The sacks of flour should be piled as follows: The sacks on the floor to be placed four inches from the side walls of car, and sacks so piled as to gradually incline to the walls of the car until the top rows press strongly against the said walls, as shown in Fig. 2.

FIG. 2.

Unless these recommendations be complied with the Inspector will charge for the labor necessary to put the flour in proper position for inspection.

RULES

Governing the Inspection of Grain

IN THE STATE OF ILLINOIS .

IN FORCE ON AND AFTER NOVEMBER 19, 1909.

The following are the rules adopted by the Board of Railroad and Warehouse Commissioners, establishing a proper number and standard of grades for the Inspection of Grain, as revised by them; the same to take effect on and after the 19th day of November, 1909, in lieu of all rules on the same subject heretofore existing.

ORVILLE F. BERRY, Chairman, Carthage, Ill.

BERNARD A. ECKHART, Chicago, Ill.

JAMES A. WILLOUGHBY, Belleville, Ill.

Commissioners.

EXTRACTS FROM THE RULES

PRESCRIBED BY THE BOARD OF RAILROAD AND WAREHOUSE COMMISSIONERS FOR THE ADMINISTRATION OF THE DEPARTMENT OF GRAIN INSPECTION AND WAREHOUSE REGISTRATION IN THE STATE OF ILLINOIS, AND IN FORCE FROM AND AFTER NOVEMBER 19, 1909.

ATTEMPTS AT FRAUD OR INTERFERENCE

All persons employed in the inspection of grain shall promptly report to the Chief Inspector in writing all attempts to defraud the system of grain inspection established by law, and all instances where warehousemen shall deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt.

They shall also, in the same manner, report all attempts of receivers or shippers of grain, or any other person interested therein, to instruct or in any improper way to influence the action or opinion of any Inspector in the discharge of his duty; and the Chief Inspector shall report all such cases to the Commission.

RULES

All grain in store in any warehouse of Class "A" at the time any amendment to the established rules of inspection (affecting such grain) may hereafter go into effect shall be inspected out (in satisfaction of warehouse receipts dated prior to that time only) in accordance with the rules as they stood prior to such amendment.

No claim for damages on account of error in the inspection of any lot of grain (except grain inspected from Public Warehouses in accordance with law) will be entertained or allowed by the Board of Railroad and Warehouse Commissioners, unless complaint of such inspection shall be made to the Chief Inspector before the grain in question shall be removed from the car in which it is inspected, or before it shall leave the jurisdiction of the department.

Grain transferred from the car in which it was inspected to another must be inspected after transfer to entitle the owner to have any claim arising thereunder considered by the Board of Railroad and Warehouse Commissioners.

RULE 1.

Failure to report for duty unless properly excused will be deemed a surrender of the position held by the absentee and no compensation will be allowed for days so absent.

RULE 2.

Deputy Inspectors, Chief Samplers and Helpers are especially instructed to use all due care in cases where it becomes necessary to remove boards to obtain ingress into cars in order to properly inspect or sample the grain in such cars, to replace all such boards removed in such a manner as to prevent leakage or waste of grain from cars. It will be the duty of all inspectors and Chief Samplers to make a record of defective and leaky condition of cars and grain doors and to report the same to the Chief Grain Inspector on blanks especially prepared, showing the location of leakage and such other information as would be of service to the receiver and the shipper of grain.

RULE 3.

EARLIER HOURS.

When the receipts are large, and the interests of the trade require an earlier inspection, all Deputy Inspectors, Chief Samplers and Helpers assigned to duty on the track will begin work at as early an hour as practicable.

RULE 4.

EVENING WORK.

Inspectors stationed at elevators will, when necessary to complete the cargo or shipment upon which they may be engaged, remain on duty after regular hours and as late in the evening as they can see to inspect grain safely. Compensation for such services is provided in Rules 13 and 14 of the Railroad and Warehouse Commission.

RULE 5.

WET WEATHER AND DARKNESS.

No inspector stationed at an elevator is authorized to inspect out of store after dark or in wet weather, except on receipt, personally or through the office of the Chief Inspector, of an order written upon the printed blanks furnished by the Department, filled and signed by the owner of the grain or his authorized agent, relieving such Inspector of all responsibility for damage which may be caused by such wet

weather, or loss by such errors as are liable to occur by reason of darkness; but in every case the Inspector must be personally present when the grain is actually delivered on board, making his report of the inspection after such actual delivery.

NOTICE.

All matters pertaining to the inspection of grain should be taken up with the Chief Inspector of Grain.

In case of unsatisfactory inspection, write or wire immediately. Grain cannot be re-inspected after it has been unloaded and the identity of it lost.

W. SCOTT COWEN,
Chief Inspector of Grain.

It shall be the duty of such helper to bring the samples of graded grain, secured as above, to the Chief Sampler's office daily, for use in examinations by Supervising Inspectors, the Appeal Committee and the Official Sampler. The identity of such samples shall be known, however, only to the State Department and to the Official Sampler.

Twelfth. Such samples shall be kept on file in the Chief Sampler's office a reasonable time, labeled, however, by grades and numbers which shall indicate their identity only to the State Department and the Official Sampler, and thus unidentified they shall be accessible to the public.

Thirteenth. It shall be one of the duties of the Official Sampler to thoroughly examine these samples daily, and in case any of them indicate improper grading, he shall, in case the Chief Inspector, the Supervising Inspectors or the Appeal Committee have not already

taken up such improper grading for correction, call their attention to same, explaining in what way the inspection has been too lenient or too rigid.

Fourteenth. In case the Official Sampler or any other party at interest, *i. e.*, the buyer or the seller, should thus complain to the State Department and fail to have his complaint properly or favorably considered by the State Department, it shall be the duty of the Sampling or Grain Committee to listen to his complaint, and if it is in their judgment reasonable, the other parties at interest shall be notified, and the matter taken up by the Grain Committee with the State Department—all parties at interest being given an opportunity of being present at such hearing.

Fifteenth. In the examination of samples of grain inspected, a standard sample shall be used as a gauge, and in case of doubtful grain, which is very near the "line," a comparison shall be made with such standard sample, and in case of disputes calling for an appeal, final decision shall be rendered in accordance with such comparison.

Sixteenth. Standard samples above referred to shall be made up as early as possible at the beginning of each crop year, and approved by the State Inspection Department, Appeal and Sampling Committees and the Official Sampler—all working together to make up a fair and equitable standard.

Seventeenth. In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth. Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 18 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth. In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

REGULATIONS

For the Weighing of Grain

Under and by virtue of the provisions of Section 2, Rule IV, of the Rules of the Board of Trade of the City of Chicago, enacted in pursuance of Section 10 of the Act to Incorporate the Board of Trade of the City of Chicago, the following regulations are adopted by the Directors of the said Board of Trade of the City of Chicago, for the guidance and information of the Weighing Department and the members of this Association.

REGULATION 1.

Received or transferred grain shall not be cleaned or blown before weighing, nor shall it be subjected to such handling as will cause loss in weight. This prohibition shall also apply to shipments after weighing.

REGULATION 2.

No dockage from actual weights shall be allowed on in-coming or out-going grain, except when unusual dirt or foreign matter is inseparably mixed with the grain, in which case it shall be the duty of the weighmaster or his deputy to determine the amount of unusual dirt or foreign matter, and to weigh the entire contents of the car. All allowances for unusual dirt or foreign matter shall appear on the face of certificate issued for such cars.

REGULATION 3.

All cars when unloaded must be thoroughly swept and cleaned, except in cases where cars contain foreign matter unsuitable for mixing with grain. Then it shall be the duty of the Weighmaster or his deputy to determine the amount of grain and foreign matter to be left in the car. This amount shall be stated on the certificate of weights for each car, but such amount shall not be included in the net weight as shown by certificate.

REGULATION 4.

If hopper scales are used in determining the amount of grain a car contains, it shall be the duty of the elevator operators unloading such car to deliver to the scales the entire contents of said car except where cars contain unusual dirt or foreign matter not covered by Reg. 3, because not suitable for handling by elevator.

It shall be the additional duty of said elevator operator to clean thoroughly the unloading pits and the floor adjacent to such pits of any of the contents of said car that may have lodged there and deliver such contents to the scale to be weighed and credited to said car.

REGULATION 5.

The contents of each car shall be weighed in as few drafts as the scale in use will permit.

REGULATION 6.

The Weighmaster and his deputies shall be allowed to handle the scale beams in the performance of their duties.

REGULATION 7.

Certificates of weight shall bear the date of weighing, and when issued for cars that have been loaded with grain which, for any reason, are subsequently returned to the loading elevator and wholly or partly unloaded, shall promptly be returned to the weighing department by the member, firm or corporation receiving such certificates.

REGULATION 8.

No certificates of weights shall be issued on grain unloaded or transferred en route unless they are applied for within a reasonable time after cars are weighed, and before they have had time to arrive at their destination.

REGULATION 9.

A straight transfer must consist of the transferring of grain from one car to another without its identity being lost. If transferred through an elevator, the grain must go direct from the western or unloaded car to the scale and from the scale direct to the eastern, or car to be loaded without going into or through any house bins.

REGULATION 10.

All cars that are to be loaded with grain shall be in a suitable condition to carry such grain safely. In case cars are loaded that, in the judgment of the Weighmaster or his deputies, are not in proper condition to carry grain safely, the parties loading such cars shall at once be notified, and a statement of the condition of the car shall appear on the face of the certificate of weight issued for such cars.

REGULATION 11.

The Weighmaster in regulating the details of his office and the service of employees may, with the consent of the Weighing Committee, make such regulations as may be requisite or desirable in order to secure correct weights.

REGULATION 12.

Any member, firm or corporation of this Association receiving weight certificates not belonging to them shall return promptly such certificates to the Weighing Department, in order to facilitate delivery to the rightful owner.

**REGULATIONS ADOPTED UNDER THE AUTHORITY GRANTED IN
SECTION 22 OF RULE IV, ESTABLISHING "THE CUSTODIAN
DEPARTMENT OF THE BOARD OF TRADE OF THE
CITY OF CHICAGO":**

I.

A Custodian duly appointed by the Board of Directors, shall be placed at such private elevators or other buildings or places of private ownership as the Custodian Committee shall deem necessary and such Custodian shall keep a daily record containing the official Board of Trade weights of all commodities dealt in under the rules of this Association and weighed by the Official Board of Trade Weighmaster which commodities have been unloaded into or loaded out of such private elevators or other buildings, or places of private ownership.

II.

When any of such commodities shall be unloaded as above provided, the Custodian shall promptly issue and deliver to the party for whose account the same is unloaded an official certificate as evidence of such unloading, except in cases where the commodity is loaded out in whole or in part on the same day as received, in which case the Custodian shall procure the shipping receipt or bill of lading given for such property, and shall deliver the same to such party with a certificate for such quantity that is not loaded out—the two together representing the entire quantity unloaded.

III.

The Custodian shall not allow the loading out of any commodity from such private elevators or other buildings or places of private ownership, except as provided in the second of these Regulations, until the proprietor or manager thereof shall surrender to him for cancellation official certificates properly endorsed equal to the amount of the commodities to be loaded out and such commodities shall be weighed by the Weighing Department of the Board of Trade of the City of Chicago.

IV.

The Custodian shall estimate daily the amount of shrinkage incidental to the handling, cleaning or clipping of grain, also of any variation between the "in" and the "out" weight, and report same at once to the proprietors or managers, and it shall be their duty to surrender to the Custodian certificates for cancellation sufficient to cover same. It further shall be the duty of the proprietors or managers to keep in store at all times, in excess of all outstanding certificates, a quantity equal to at least 3 per cent of the total quantity in store represented by outstanding certificates, in addition to the estimated amount of shrinkage, as hereinbefore provided.

V.

In such places where the commodities herein described are manufactured into products, or the original commodity otherwise changed in form, the Custodian may permit the proprietors or managers thereof to use such commodities without the surrender of Custodian certificates for the same whenever the said proprietors or managers shall furnish to said Custodian written evidence of the consent to such use by the party for whose account the said commodities were unloaded; provided, however, that the Custodian shall not issue any certificates for commodities used under such circumstances.

VI.

It shall be the duty of the Custodian to require the official weighing of all commodities in each and every private elevator, or other building, or place of private ownership hereinbefore described, by the Board of Trade Weighmaster as often as in his judgment may be needful to enable him to accurately determine the quantity of commodities stored in such elevators, or other buildings, or places of private ownership, for the purpose of verifying the correctness of his outstanding certificates; or the Custodian Committee may at any time in the exercise of its discretion, order the weighing of such commodities.

VII.

Whenever, in the judgment of the Custodian or of the Custodian Committee it shall be deemed advisable, the proprietor, or manager, of such private elevators other buildings or places of private ownership, shall be required to increase his ordinary line of fire insurance upon such private elevators, other buildings or places of private ownership and the contents thereof for which Custodian certificates have not been surrendered for cancellation, to such an amount as may be determined by the Committee or the Custodian; and such proprietor, or manager, shall allow an inspection of the amount and character of said insurance carried by such proprietor, or manager, whenever requested by the Custodian Committee or by the Custodian.

VIII.

Whenever such a course shall, in the judgment of the Custodian Committee, be deemed necessary, it is hereby empowered to impose upon such proprietors or managers the duty of preserving the identity of all grain thereafter unloaded into such private elevators, or other buildings, or places of private ownership; or in lieu thereof, the adoption of such measure or measures as in the judgment of the Custodian Committee may be adequate to protect the parties for whose accounts the commodities aforesaid were unloaded.

IX.

The buyers of commodities sold and delivered as hereinbefore provided shall tender in payment certified checks whenever the party for whose account such commodities have been unloaded shall give reasonable notice of his intention to demand the same and the latter may retain in his possession the Custodians certificate until such certified check is thus tendered.

X.

It shall be the duty of the Custodian at such private elevator or other building or place of private ownership at the close of each day to seal the engine, shipping bins or other bins, or to adopt any other measures which in the judgment of himself or the Custodian Committee are necessary to prevent the removal of grain or other commodities from such private elevator or other building or place of private ownership during the absence of such Custodian.

XI.

All such commodities unloaded as aforesaid shall be held in such private elevator or other building or place of private ownership and shall not be released therefrom except in accordance with the Rules and Regulations of this Association governing the Custodian Department, but the Custodian, his assistants or subordinates shall not be liable in their official bonds or otherwise for any losses unless such losses are directly attributable to the negligence or misfeasance of said Custodian, his assistants or subordinates in issuing certificates for commodities not in fact unloaded or in allowing, during the hours when such private elevator or other building or place of private ownership is open for business, such commodities to be loaded out without requiring the surrender of official certificates for the same and nothing herein or any custom or private agreement to the contrary shall be construed to extend such liability; provided, however, that the Board of Trade of the City of Chicago shall in no case be liable for any losses except to the extent that such losses are due to its failure to keep in force a good and reasonable bond for the honesty and fidelity of said Custodian, his assistants or subordinates.
